

Coho® Thru Axle Fit Guide

This product is NOT compatible with capped drop outs.

This guide is intended to help determine which Coho® Thru Axle you will need for hitching the Coho® XC Cargo Trailer to your bike.

1

Print this sheet at 100% on 8.5" X 11" paper. Verify the illustration is to scale by using a ruler.

2

Confirm the thread pitch of your current axle by placing it over the illustrations below to find a match. The thread pitch is the distance from the tip of one thread to the tip of the next. If you are unable to confirm the thread pitch using this guide, please contact your bike manufacturer for assistance.

3

Measure the length of your current thru axle using this illustration. Align your axle at 0mm, measure from the base of the axle head to the tip of the threads.

4

Use the thread pitch and axle length to determine which model Coho Thru Axle axle you need.

note

If your axle length is not shown for the thread pitch you have, we do not have a compatible thru axle for you at this time.

Thread Pitch (TP)	Frame Measured Axle Length	Compatible Burley Coho Thru Axle	SKU
1.0	~158-174mm	12 X 1.0, 158-174mm	960250
1.0	~229mm	12 X 1.0, 219-229mm	960225
1.5	~159-165mm	12 X 1.5, 159-165mm	960252
1.5	~172-178mm	12 X 1.5, 172-178mm	960253
1.5	~209mm	12 X 1.5, 209mm	960226
1.5	~229mm	12 X 1.5, 229mm	960255
1.75	~174-180mm	12 X 1.75, 174-180mm	960214
1.75	~192-198mm	12 X 1.75, 192-198mm	960228
1.75	~209mm	12 X 1.75, 209mm	960227
1.75	~229mm	12 X 1.75, 229mm	960216

Coho® Skewer Fit Guide

This guide is intended to help determine which Coho® Skewer you will need for hitching the Coho® XC Cargo Trailer to your bike.

1

If you know your bicycle's rear-wheel hub spacing, use this chart to select the corresponding Coho Skewer.

Bicycle Hub Spacing	Compatible Coho Skewer	SKU
130 - 135 mm	Coho 5mm Skewer (130 - 135 mm)	960260
170 mm	Coho 5mm Skewer (170 mm)	960262
190 mm	Coho 5mm Skewer (190 mm)	960261

2

If you do not know your bicycle's rear-wheel hub spacing or if the hub spacing is not listed, **measure the distance between dropouts from the exterior side where the QR skewer makes contact with the frame.** See illustration for reference. ▶

3

Use this chart to determine which compatible range the measured distance falls under and select the corresponding Coho Skewer.

Compatible Range	Compatible Coho Skewer	SKU
132 - 162 mm	Coho 5mm Skewer (130 - 135 mm)	960260
166 - 196 mm	Coho 5mm Skewer (170 mm)	960262
186 - 216 mm	Coho 5mm Skewer (190 mm)	960261

note

Bikes with enclosed dropouts may prevent compatibility with the Coho Skewer. See image below for an example of an enclosed dropout.

note

If the measured distance does not fall within one of the compatible ranges on the chart, we do not have a compatible Coho Skewer for you at this time.
